Pulsedive + doIT solutions

doIT solutions

Founded 2010

Gelnhausen, Germany

Top Pulsedive channel partner offering professional services and technologies for SOC implementation and management

Partnership

Delivering intelligence-driven security operations to financial, industrial, manufacturing, and supply chain enterprises with market caps from $1B to $30B+

Products

`</>` API ⊞ Feed

What were you looking for in a CTI solution?

Retrieval of ad hoc, contextual information with on-demand scanning

Ease of use in day-to-day by security teams and workflows

Seamless SOAR enrichment via API in a security services environment

Why did you choose Pulsedive?

Fast aggregation and extensive information available (e.g. screenshots)

Excellent user interface and browser add-on for analyst users

Unbeatable value for cost and offerings to end customers

What results have you found?

Quicker incident resolution, with 5-20 enrichments per investigation

Full integration of Pulsedive API & Feed into doIT's core service offering

High adoption by end clients for enhanced detection and response

> " Used in nearly every incident, Pulsedive is now one of the core services that doIT recommends to clients."
